Summary

Junior Software Developer with 1+ year of professional experience building production web applications with React.js, Node.js, Express.js, and JavaScript/TypeScript. Currently developing a full-scale HRMS and employee engagement platform at Docme Cloud Solutions used by 5000+ HR administrators, managers, and employees. Experienced in responsive UI development, reusable component libraries, RESTful API design and integration, role-based access control, and relational and NoSQL databases (PostgreSQL, MySQL, MongoDB). Led the migration of a legacy internal support tool to a modern React.js and Node.js stack. Works effectively in Agile/Scrum teams across the full software development lifecycle, from sprint planning and code review to debugging and release support.

Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, PHP, C++
- **Frontend:** React.js, React Hooks, Angular, Tailwind CSS, Ant Design, shadcn/ui, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, API Integration, JWT Authentication, Role-Based Access Control (RBAC)
- **Databases & ORMs:** PostgreSQL, MySQL, MongoDB, Prisma ORM, Mongoose, Firebase
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Netlify, Figma
- **Practices:** Agile/Scrum, SDLC, Code Review, Unit Testing, Debugging, API Documentation, Cross-Functional Collaboration
- **Languages:** English (Professional), Malayalam (Native)

Experience

Software Developer (Full Stack)

Sep 2025 – Present

Docme Cloud Solutions

- Develop and maintain a full-scale HRMS and employee engagement platform serving 5000+ users, shipping features with cross-functional product and HR teams for employee records, leave management, and attendance workflows.
- Led the modernization of the internal HRMS support tool, migrating a legacy codebase to React.js and Node.js and reducing long-standing technical debt.
- Re-engineered core support-tool functionality into a RESTful API using Node.js and Express.js and redesigned the interface, reducing manual support turnaround time by 10%.
- Built and maintained 10+ responsive React.js pages, restructuring components and removing UI inconsistencies to improve page load performance by approximately 20%.
- Created reusable React.js components and shared UI patterns with Ant Design and Tailwind CSS, accelerating feature development and keeping the interface consistent across modules.
- Integrated frontend modules with backend REST APIs, implementing data fetching, form validation, loading states, and error handling.
- Implemented role-based access control (RBAC) and role-specific views so HR administrators, managers, and employees access only the data and actions relevant to their role.
- Debugged and resolved production issues and customer-reported bugs with QA and support teams, keeping releases stable.
- Tested and documented API endpoints in Postman, simplifying integration and handover across the development team.
- Participated in Agile sprint planning and peer code reviews, maintaining code quality and on-time delivery across releases.

Projects

Eclipse Pay – Full-Stack Payment System

Jan 2024 – Mar 2024

Academic Project | React.js, Node.js, Express.js, MongoDB

- Designed and built a full-stack payment processing application that handled 20+ simulated transactions, with input validation and error handling across the payment flow.
- Developed a RESTful API layer with Node.js and Express.js connecting the React.js frontend to a MongoDB database.

Library Management and File Upload System

Sep 2024 – Oct 2024

Freelance Project | Node.js, Express.js, MongoDB

- Built an educational web application that lets 100+ students upload, organize, and access textbooks through a centralized digital library.
- Delivered the project independently for a freelance client, from requirements gathering and backend development to deployment.

Education

Bachelor of Computer Applications (BCA)

Oct 2021 – Apr 2024

Sree Narayana College of Technology, University of Kerala

Higher Secondary Education (Kerala State Board)

Jun 2020 – Mar 2021

AKMHSS

Interests

Football, Coding, Automobiles, Gaming
